# ANNUAL REPORT

(1<sup>st</sup> June 2022 – 31<sup>st</sup> May 2023)

## INTRODUCTION OF THE COLLEGE

C-Edge College, established in 2012, recognised under Sections 2(f) and 12(B) of the UGC Act is a premier co-ed institution, affiliated to Nagaland University. The College has also received permanent affiliation from Nagaland University. The College is recognised by the Government of Nagaland, Department of Higher and Technical Education. C-Edge College was assessed and accredited by NAAC for its Second Cycle on April 2023 and is graded B with CGPA of 2.45.

C-Edge is an abbreviated form of Cutting-Edge. The term “Cutting-Edge” visualises outcomes not only in terms of an adequate arrival, but to be participants in the most advanced and exciting developments in a field. It also means to gain a leading edge, an advantage. The C-Edge College thus presents the Vision to build and engage in an educational environment which enables its students towards the formation of a “cutting-edge” mind-set. We believe that the human mind must first “Aspire” and reach the “cutting-edge” frontier before we can actually set out to achieve any goal within the realm of excellence.

C-Edge College is ideally located at the outskirts of Dimapur and is well-connected to the city and other important places in the state. The College had a humble beginning with one single-storied building and a handful of students. Presently, the campus encompasses of a three-storied academic building, the Principal’s quarter, a basket-ball court and ample green lush space for future development. The College also has its extension campus 4.5 km away from the main campus, primarily developed for vocational and skill development programmes.

The College offers regular and professional undergraduate programmes as under:

- Bachelor of Arts (BA) - both Pass Course and Honours in English, History, Political Science, Sociology, Economics, Education and Psychology.
- Bachelor of Business Administration (BBA) – with Specialisation in Marketing Management, Financial Management and Human Resource Management.

The College implemented CBCS (Choice Based Credit System) in 2022 for Bachelor of Arts (BA) programme under Nagaland University directives. In 2023, the University introduced the Four Years Under-Graduate (FYUG) programme based on National Education Policy (NEP) 2020; the College has adopted the same for both Bachelor of Arts (BA) and Bachelor of Business Administrative (BBA).

C-Edge College in collaboration and supported by Japan Foundation New Delhi has introduced Japanese Language Programme since 2020. This is for the first time in the North East Region and can be a vital key for the future career of the students and youngsters around the region. The College also has an MOU with H&A Arms Incorporation which is a Sending Organisation with its headquarters in Nagoya, Japan. They have set up a centre in the College campus and provide Japanese language training to recruits to undergo technical internship placements in with different organisations in Japan.

The College also has an MOU with Clefnote Music Academy which has set up one of its branches in the College campus thus providing more opportunities for students. Clefnote Music Academy is affiliated to the “Associated Board of Royal School of Music, London”.

### **C-EDGE COLLEGE VISION**

We believe that education is one of the single most critical components for all forms of social empowerment, progress and development. Hence the pace and quality of the empowerment, progress and development of the people shall depend upon the quality of education imparted within the society.

We believe that C-Edge College should and can play a major role in our society today, towards delivering that kind of quality education required for sustainable and holistic development.

Our Mission – Quality Education for:

- Poverty alleviation and sustainable development
- Community participation and leadership
- Values and life skills education
- Centre for language development and documentation
- Fostering creativity and its express.

## ACADEMIC ACTIVITIES

\*\*\*Special Lecture Series (SLS) is one of the College unique activities where all the departments deliver talks on topics related to the discipline, current issues and other relevant subjects. Resource persons for the SLS have to be external experts who have interest or are specialists in the specified areas. This will also give the opportunity to the students to explore outside knowledge and give them the platform to interact with experts to gain more information and awareness. Each department conducts one SLS per semester.

\*\*\*Perspective Classes is one of the College Best Practices (please refer to the Best Practice section for the details). Each faculty will conduct one perspective class per semester on topics outside of the syllabus but relevant to the subject and discipline. They focus on use of audio visuals and ICT support such as power point presentation so as to instill E-Learning.

# BEST PRACTICES OF C-EDGE COLLEGE

## Best Practice - I

**Title of the Practice:** Perspective Class

### Objectives of the Practice

From the time of its inception, this practice was envisaged to offer something different, a value added knowledge activity for our students, and adopted as one of the College “*Best Practices*”. This is a unique form of class lecture in an interactive format, designed by the College based on the following concepts:

1. The talks would not be based on the text book or syllabus per se, but it would generally be on the scope and concept of the subject matter, to provide a broader view by presenting ideas and materials from outside the scope of the text book or syllabus.
2. The topics are open and wide ranging.
3. The talks shall be on any subject matter as a specific text book or the syllabus may not be able to cover all different perspectives due to the nature of limited academic time available.

### The Context

Perspective Class in C-Edge College has been introduced since 2013-14, within a year from the start of the College itself. The idea is to look at the subject matter from a different perspective by presenting a broader picture of the subject matter which will give a deeper and better understanding of the subject to the students, and enable them to better master the same. It will also teach them the applicability of the subject and its impact in the real world.

The Perspective Class would teach students how to make a connection between the theory and the practical. For students who already have a good academic grade, the Perspective Class challenges the students to a higher level of understanding. For those who are struggling, it helps them to get a better grasp of the subject. For those who think that the subject has little or no relevance in life, the Perspective Class challenges them with a motivation to think otherwise.

Furthermore, Perspective class conducted by the faculty concerned requires intensive research; thus, it will guide the faculty members to use the topic as a base of reference for their future research papers. This clearly shows the benefits for both faculty and students.

### The Practice

Ever since its inception, the team of faculty takes up the Perspective Class at least twice a semester bringing about more qualitative and productive sessions with the students related to the subjects. The presenter makes use of Power Point Presentation, Audio Visuals, etc. to make the session more interactive and interesting and also inculcate E-learning.

In order to track the understanding or knowledge gained and response of the students, feedbacks are prepared and collected after every Perspective Classes.

### Evidence of Success

The table below shows the evidence of success as responded in the form of feedback provided by the students after attending Perspective Classes:

Name of the Student	Class	Feedback
Kamso Yimchunger	BA V Semester	Perspective classes have helped me to see the world from a different point of view. Apart from bookish knowledge, perspective classes are very much enjoyable and needed. I like everything related to it.

Moainla	BA III Semester	I find perspective classes to be really interesting and useful. We learnt so much outside the syllabus. I enjoyed it as we get so much idea on the related subject.
Ayeka Aye	BBA V Semester	Perspective Classes are interesting because it can be boring to learn only from the syllabus. The best part is that perspective classes broaden my mind-set. It helps me to think outside the box and become more curious than before.
Nyimang Mong S	BBA III Semester	Perspective classes are very educative and fun because I get to learn something new. It has also helped me to do more research on it and shared in the community event.
Tokingla	BA V Semester	According to me, perspective classes are useful and educative. It refreshes our mind and helps to think critically too.

### **Problems Encountered and Resources Required**

The concerned faculty to give Perspective Class requires research and materials such as references and books which sometimes may not be readily available.

### **Best Practice - II**

#### **Title of the Practice:**

Katharizo

#### **Objectives of the Practice**

- To take learning outside of the classroom, the objectives of the college has, since its inception focused on inculcating a strong culture of work ethics and cleanliness in all aspects of the environment, the body and the mind.
- The first step towards this is creating a sense of responsibility for the classrooms they learn in, for the washrooms they use and for the campus that belongs to them.
- Keeping this focus on cleanliness of the body, mind and environment as the foundation to healthy living, the college encourages its students to participate in keeping their classrooms, toilets and environment clean.
- To realise this vision, various activities have been taken up. One of the most important activities in this step is the regular social work every Saturday, where each House works on rotation basis to clean their classrooms, toilets and the campus premises.

#### **The Context**

A peaceful and progressive society is possible when its members are hard-working and possess the right attitudes. Believing and understanding that a clean mind in a clean body flourishes in a clean environment, the college has reasserted this belief that there is great benefit in developing good and healthy work ethics and cleanliness.

“Katharizo” which comes from a Greek Word, a verb, meaning to cleanse, purge, purify, and wash away. These action words have been applied to mould diligent and cleanliness conscious citizens who can learn these initiatives and take it with them and contribute such qualities to the communities they live in.

Katharizo, thus, aims not only to encourage the growth of hard-working and responsible students, but also to create a community of students who will take these values back to their respective communities

**The Practice**

Katharizo is an on-going and continuous process that is practiced by all the stakeholders of the College:

Students: House Wise Katharizo is conducted every Saturday by the students. Each House (four Houses) on rotation basis take turns to clean the campus as well as do social work outside the College campus. All members present in the college on Fridays also clean up their own classrooms after the last class under the in-charge of Class Representative (CR).

Faculty & Staff: Every faculty and staff also conducts Katharizo once a month where they clean their office and surroundings.

**Evidence of Success**

The success in the conduct of Katharizo among the students, staff and faculty can be seen in cleaner, tidier classrooms, office, and college campus. It also inculcates aesthetic values in the mind of every member.

**Problems Encountered and Resources Required**

One issue in conducting Katharizo is non-cooperation from some members who fail to turn up on certain days.
