How can I describe all the teachers at once, while some are excellent in teaching, while some are average, cause everyone are different in their own way.

Teaching activities are good as of now, but regarding class room, in the window panel there are tobacco stain everywhere.

My classroom was fresh at first, but after other students came in during free time, it's all left with tobacco stain.

Provide proper electricity during hot summer season because we students can't focus on our lectures if there is no current inside the classroom.

First of all all teachers are well educated and well trained to teach a student but I only want to improve is the way of teaching everyone isn't same as others we need to gain the interest in learning as daily basis so I will be pledge of the learning process include a moment of joy and funny scene where a student can open up him/her self while attending a lecture

Non

Well I don't find any weakness of our college.

Fun learning

1. By explaining the topic not too long but a bit in short such a way that the student can listen & understand....
2. If the topic is boring... He/ she must make the topic in creative way To let student understand....
3. While explaining the teacher voice should be clear & loud if not we can't hear some explanation because of low voice....

Stop favouritism, tribalism and the college should provide funds for events and programs like other colleges.

Teaching methods r okteachers help us alot in every possible way

Everyone should get marks according to what they do because we have seen their are some students who doesn't attend class the whole semester but at the end of the day they get pass in internal that is not fair for the students who works hard the whole semester

More field trip, exchange students with other schools and online class to be keep as an option

Teacher should lough viece / to treat fair internal mark/ teacher should know the students weakness and to encourage and to teach smooth & effective 🍌❤

I can't say anything further

I guess there should be more outdoor exploration so that the students can learn more at the same time build a good communication with the teachers which benefits both

There should be proper washroom with drainage, very weak of washroom.

The college bus should be provide while the students of our college is going out for some institutional work , lack of transportation supply with own children.

Drinking water should provide fresh and clean water, where there is very poor quality which is not clean water 💧💧💧 we r taking.. it should be fresh and clean, not only there but both boys and girls washroom water should be in proper clean water.
