125 responses

XVIII) The overall quality of teaching-learning process in the college is very good.

125 responses

XIX) Give three observation / suggestions to improve the overall teaching – learning experience in the college.

54 responses

1. Some teachers teaching style is soo narrow and traditional. It can be made more broader.
Eg: If a narrow minded teacher understand that amendments means changing, then he will disagree with the student who thinks that amendments means modification. The one word "changing" is the only right for a teacher.

2. Availability of projector.

3. Giving more oppotunities to the students more than a teacher in academic field. Eg: presentation.

1. More test should be conducted

2.must give proper explanation in a way that students can catch up and understand the point

3.must not rush with the syllabus

History minor for ba 5th semester can't understand anything and even vac it feels like it's an useless subject of no use

More friendly

Respected sir/Ma'am

My suggestion is that even though the college is doing great to make the best out of us ,I observed that talents such as arts,music,design, writings doesn't have enough opportunities for our growth,i observed that the college do competition too but sometimes only,so I want suggest more competitions based on talents.

2.Many students r not good in studies but they r good at something but teachers and colleges only focus or appreciate the ones who is good in academics which led to the feeling of failure in individuals mind.

3.i want the colleges or teachers to know that every students is trying their best but somehow the unfairness occurs sometimes in marks, attendance etc so I suggest that the college or teachers look carefully to that too.

Thank u

Understand the weakness of students and must not push anyone beyond his/her ability

1) fair to every student

More interactive sessions.

More co- curriculum activities

Meribeni Ngullie

Encourage, support and to provide clear

1. More test should be conducted
2. Must give proper explanation
3. Must not rush with the syllabus

1. Regular feedbacks
2. Interactive learning
3. Fairness

Interactive

Use of technology

Friendly environment

More practical classes

Class activities

1. Proper use of LCD explanation
 2. Explain in the way where every students can understand the topic or the chapter
 3. Speaking and loud in vocabulary
- And more focus on letting the student understand

Thank u

Incl

Everything is fine

Fairness

Use more interactive and interesting teaching methods. Add more practical and skill-based learning activities.

1. Give regular feedback to students .
2. Encourage students to ask questions and share ideas .
3. Use of modern teaching tools .

1. Enhanced support activities
2. Promote extracurricular activities
3. Personalize learning

Would be best if the teachers asks the students in what ways to conduct test because some people lost words during oral test even if we know the answer

1. Don't tak all time out in explanation students gets tired
2. Tak us in trip ,me as an history students I wanna visit many ancient places
3. Encourage us more ,b strict since many students r just in college for name

Nothing comes to my mind

1. Implement active learning strategies
2. Foster a supportive and inclusive environment
3. Leverage technology and real-world applications

Explanation method, curricular activity, and skill enhancement .

- 1:Teacher's should cover the syllabus as quick as possible
- 2:teachers should take class probably
- 3:should have interaction with each students

- 1)Not every teachers are good in specific areas
- 2)some teachers don't care about students
- 3)if they could be easy to approach

1. Provide diverse learning opportunities .
2. Allowing students to develop practical skill alongside theoretical knowledge.
3. Encounter open dialogue for doubts and discussion.

My three suggestions to improve the overall teaching are

1. To find out students weakness and solve the problem
2. Organize Extra curricular activities for students to grow in every field of aspects
- 3 . Giving less pressure on students in Academic

Extra suggestions - This college need to compete with others college.In every way , Our college is lacking behind

Our college should also be professional

Thank you

Everything is great

Mentorship program can be enhanced.

Well teaching facility.good cooperation.and teaching techniques

- 1) Active learning strategies.
- 2) utilize a variety of assessment methods.
- 3) promote continues professional development for teacher.

Will be obliged, if the syllabus is thoroughly cover , without pick point the interesting topics.

Our concentration span has its limits, the lengthy lessons doesn't always aid understanding .

For me the teaching and over all institution I good and very helpful for me

I'm satisfied with the institution and the teaching faculty.

- 1) to have fairness in marking internal marks
- 2) to have a proper field trip for students for outknowlege
- 3) to complete the syllabus early so that we can prepared for exam

Teachers should monitor the students during test be it in classroom library or anywhere because we study hard but the students who cheat get better marks than us . Because teachers don't watch over us and it makes those who study and work hard disappointed

Teachers should be fair and not partial during class tests or internal markings, it'll be more better if they explain us the topics properly instead of just looking from the ppt and reading it out!!

1. Need more explanation about the particular topics instead of giving notes and examples only.

Explanation method, Curricular activity ,and skill enhancement.

- a. Teachers should sometimes listen to the students suggestions in some activities.
- b. The department of any teacher shouldn't give their full focus in maintaining and managing equal treatment.
- c. The students should learn how to adapt and understand the new teachings for better learning.

No words

- 1- promote extracurricular activities
- 2- personalize learning
- 3- Enhanced support activities

1. Encourage interactive learning.
2. Use technology in teaching.
3. Get regular student feedback.

Non

The interaction between the teacher and the students during the class hour is poor so it would be better if both work on it .

1. Enhanced support activities
2. Promote Extracurricular activities
3. Personalize learning

1. Please be fair with the internals..
2. Please complete the syllabus
3. And please teach thoroughly

- 1: Clarity.
- 2: Punctual.
- 3: follow the rules.

- 1) Practical exposure and field learning
- 2) Balanced schedule and stress free learning
- 3) Regular feedback and mentoring
